TALK OF LYNCHINGS.

Bellefontaine People Aroused Over Certain Crimes.

MANY DETECTIVES AT WORK.

Others Besides Ford and Deerwester Suspected of the Detrick Double Murder—Serious Charge Against a Father-in-Law—An Alleged Confession.

BELLEFONTAINE, O., Aug. 16.—There are many detectives at work here and in Union township on the rumors regarding the double murder one week ago of David Detrick and his wife. While Tony Ford and Lew Deerwester are under arrest for the crime, it is generally believed there are others who know something about it. In connection with the rumors implicating different neighbors, one attempted suicide on his wife's grave because he was suspected, and a woman, after brooding over the horror, took morphine with suicidal intent.

Mrs. Charles Shellman, a relative of the Detricks, charged her father-in-law, Mark Shellman, with criminal assault, and was talk of lynching the father-in-law, as well as Ford and Deerwester, but no violence is anticipated, although the excitement here is intense. The developments of the past week have been such that many are apprehensive of the result. The sensation now is the alleged confession of Ford to Mrs. William Ellsworth previous to his arrest, that he committed the double murder. Ford now denies the confession.

DUEL BETWEEN BROTHERS.

Lively Shooting Affray at Hicksville Over a Letter.

HICKSVILLE, O., Aug. 16.—This city has been thrown into great excitement over a duel between Dep and Gill Ackley, barbers and who are twin brothers. The trouble arose over a letter addressed to Dep which Gill had received. For it Gill swore that he would kill his brother. Both met at Kleckner's barber shop and both were intoxicated.

Gill drew a revolver and fired at Dep but missed him, the ball passing through the coat sleeve of L. O. Arnsworth, a bystander. He then drew a knife and cut Dep in the arm. The latter started to run with Gill in pursuit. Upon reaching an alley Dep pulled a whisky bottle from his pocket and turning on Gill clubbed him in a horrible manner. Dep escaped to the woods, followed by a crowd of men and boys. Gill is in a critical condition and cannot live. At this writing Dep had not been found.

A WOMAN AFTER SAXTON.

The President's Brother-in-Law Victim of Her Unrequited Love.

CLEVELAND, Aug. 16.—George D. Saxton, of Canton, a brother of Mrs. William McKinley, is pursued by a woman who has terrorized him to resort to the law as a matter of self-protection. The woman in the case is said to be in love with Saxton, and she has been unable up to date to secure any return of her passion.

Failing in that, it is said, she drives Saxton's lady friends away from him with a gun and sends him threatening letters through the mails, which is an offense against the postal laws. The United States marshal for the district has been informed of the facts and Deputy United States Marshal Keeley has the matter in hand.

Mr. Saxton is said to have been out bicycle riding with a lady recently and when nicely under way in a lonesome spot the pair encountered the mysterious woman. She leveled a gun at the approaching pair and bore the object of her affections away, leaving the other lady to pedal home alone.

Belmont County Prospering.

ST. CLAIRSVILLE, Aug. 16.—The annual report of County Auditor Taylor to the secretary of the state shows that in Belmont county \$20,000 more indebtedness was paid off than was created. In the year ending June 30, 1896, mortgages to the amount of \$112,063 were recorded and mortgages were released to the amount of \$433,609, a difference on the other side of the ledger of near \$300,000. The above figures show a wonderful difference between 1896 and 1897. Over one-half the \$200,000 gained this last year is on farm property, too, as may be seen by looking at the figures.

Structural Iron Going Up.

CLEVELAND, Aug. 16.—An average of \$2 a ton in the price of structural steel has been made at the mills in this city within the past three or four days and another advance is looked for. A representative of the Cleveland Rolling Mill company said that he would not be surprised to see the price go up \$2 a ton more within the next 30 days.

The whole county is in a fever of excitement and should Kerr's associates be captured they will never come to trial.

VESSELS BEING SEARCHED.

The inspectors said at the barge office that they were sure neither of the men were on the LaBretagne or any other vessel which arrived here. If they come they will be taken to the barge office and held subject to the decision of the commissioners. They will be sent back unless they can establish in the courts their right to land.

People at Kensington, Ky., Determined to Stop Them.

CINCINNATI, Aug. 16.—For three months a band of Whitecaps have been causing terror in the vicinity of Kensington, Ky., and a determined stand will be made against them by the people of that section.

About two weeks ago they called at the home of Edward Bolan, the superintendent of Kensington sub division, and by force compelled him to go to the woods with them. They then whipped and beat him in a most brutal manner. Later they found a man named O'Hara camping on Kensington lake with a woman who he claimed was his wife, and beat both the man and the woman shamefully.

SIX NEW INJUNCTIONS.

Strike Leaders in Fayette County, W. Va., Restrained.

SAME AS THE FAIRMONT ORDER.

Judge Jackson Granted Them In U. S. Court at Parkersburg—Labor People at Wheeling Object to Strikers Closing Certain Mines—Meeting at Bellaire.

PARKERSBURG, W. Va., Aug. 16.—Immediately upon Judge Jackson's return from his vacation he opened court in chambers and heard petitions from mining companies for injunctions in six cases against Fred Dilcher, et al., leaders of the mining strike in Fayette county.

In each case an injunction was granted, the hearing of all the cases for a permanent injunction to take place at Charleston on Nov. 10, although a motion to dissolve the temporary injunction will be heard in the same city on Sept. 7, should the defendants so elect. The order is in every respect identical with the one issued against Debs and the strike leaders in the Fairmont region.

WHEELING, Aug. 16.—The beginning of another week of the coal strike in the Wheeling and Eastern Ohio districts shows a muddled situation. A vigorous opposition to the course on the United Mine workers in closing down the mines that supply coal for the several iron manufacturing plants has developed among the working men themselves, many asserting that a big mistake has been made.

The situation of the Laughlin mill mine across the river has been straightened out by the declaration of the miners to remain at work. A committee united on the management of the works, and it was stated that the men feared violence from the campers if they attempted to resume work today. The Laughlin and other plants are now getting coal from Fairmont.

This afternoon a great mass meeting was held in Bellaire, which was addressed by Secretary Lewis and other leaders. Its purpose is to force the Heatherington steamboat mine to suspend. Delegations marched to Bellaire from the several mining communities on the Baltimore and Ohio, Wheeling and Lake Erie and Cleveland, Lorain and Wheeling railroads in eastern Ohio, as well as delegations from this side of the river.

It is said that 300 strikers will march up the river to the Short Creek mines and force out the small number of men at work there.

LABOR LEADERS ANXIOUS.

They Await the Injunction Case Decision at Pittsburgh Today.

PITTSBURG, Aug. 16.—The injunction proceedings against the marching miners is being finally heard today. That there is much interest in the situation is evidenced by the presence here of a number of the foremost labor leaders in the country. Michael D. Ratheford, president of the United Mine Workers of America; Samuel Gompers, president of the American Federation of Labor, and James R. Sovereign, general master workman of the Knights of Labor, are here and will remain a few days. While they are here they will be kept busy.

They came from West Virginia and were brown and enthusiastic. Ratheford seemed to be well pleased with the outlook.

President Gompers expressed a hopeful view of the situation in West Virginia. He said there was some coal being produced in certain sections, but this supply was being gradually cut off. He claimed there was generally sympathy for the cause, and that fully 13,000 of the 20,000 diggers of that state have joined the suspension.

A series of meetings to be addressed by the labor leaders will be arranged. Ratheford, Gompers and Sovereign addressed a big meeting at "Camp Isolation," at Plum Creek, Sunday afternoon. It was one of the biggest meetings in the history of the strike. Some of the miners employed by the New York and Cleveland company were at the meeting.

In case the injunction is continued it is altogether probable that some of the men may march in order to get arrested. The reason for holding off is said to be due to the fact that the men have hopes the injunctions will be quashed. In case they win, the strikers say they will camp right where they are and march every morning until the strike is won. The camp commissaries are well stocked with provisions, and so far as the material man is concerned the strikers will not suffer. No move will be made by the sheriff towards raiding the camps until after the hearing Tuesday. If the injunction is continued he says the camps will be broken up in short order.

MINERS STILL MARCH.

Ignore the Injunctions and Continue to Visit the Bunola Mines.

PITTSBURG, Aug. 16.—Notwithstanding the injunction secured by the Bunola Coal company, the strikers continue to march every morning to the

pit. The deputies arrested eighteen and brought them to Pittsburgh. They were placed in jail on a charge of disorderly conduct.

The injunction case against the Bunola miners was heard before Judge Collier, of the county court, and the decision reserved. The judge said he wanted to do justice to both sides and before rendering a decision he desired to carefully examine the testimony.

The DeArmits Evicted Strikers.

PITTSBURG, Aug. 16.—The DeArmits have begun to evict the striking miners. The first eviction was made at 6 p. m. Saturday and the first victim was John Crotol, who lived at the top of the hill at Center in the Plum Creek region.

CRAZY TO REACH KLONDYKE.

A Thousand People Embarked on Ships From Victoria, B. C.

VICTORIA, B. C., Aug. 16.—There were in Victoria close upon 1,000 men of every class and from every part of the world who were just crazy to get started on the long trip to the new Eldorado. These men had tickets which will carry them to Skagway bay on the big collier Bristol, or on the steamer Islander, both of which sailed Sunday. The Bristol had been fitted with bunks and stalls for horses from the bottom of her hold to the top of her cabin deck, and every bunk and stall is occupied. Close upon 700 are going on the Bristol and just as many horses and mules. Even the big collier is filled up, the feed for these animals and the outfits for the men taking up an immense amount of space.

The Islander has just as big a crowd, but much of the space on her is taken up by a contingent of mounted police, their horses, dogs and outfits. They realize that they have a winter's trip before them before they reach Dawson City and are taking dogs and sleighs.

Horses will be taken as far as possible, and when they are of no use will be killed and used for food for dogs. A few of the men are going up with the idea of purchasing cheap outfits from men who became discouraged and are turning back; but most of them are well provided and all are taking pack animals, they having in this respect taken the advice of men who went before and have written of the difficulty of securing animals or Indians to pack goods across the pass.

Ladue Gets \$5,000,000.

NEW YORK, Aug. 16.—Joseph Ladue, the owner of Dawson City, in the Klondyke, the land of which cost him but a few nuggets, announced that he had sold all his possessions in Dawson City and the Alaskan gold fields to a New York syndicate for \$5,000,000. Ladue went to Alaska a poor man.

SAVED BY VICTIM'S FATHER.

A Rapist Spared for Trial—Armed Men After Another Brute.

CHATTANOOGA, Tenn., Aug. 16.—Will Phillips, the man who recently criminally assaulted Miss Sallie Jones, daughter of a wealthy Georgia planter, residing near this city and who was arrested in Arkansas, has been taken to the jail at Lafayette, Walker county, Ga., where the crime was committed. A mob had been organized to lynch Phillips as soon as Miss Jones identified him, but her father prevailed on them to let him go to trial.

Poses are in pursuit of the assailant of Mrs. and Miss Heathcock and every road and avenue to Chickamauga park is being guarded by armed men, who say he shall die when caught. A large reward has been offered for the man. The assaults on Miss Jones and the Heathcocks occurred within a mile of each other.

POSSE PURSUING HATFIELD.

Two Wounded When the Sheriff Dynamited His Stronghold.

HUNTINGTON, W. Va., Aug. 16.—It is now learned that no lives were lost in the fight between Cap Hatfield and his gang at Big Rock Cliffs, but it is reported that two were wounded. Hatfield and his followers are believed to be short of ammunition as well as supplies. They have retreated further into the mountains and are being closely followed by a posse. The sheriff blew up their fortress with dynamite.

Senator Teller's Views.

DENVER, Aug. 16.—"Heretofore it has been supposed to be the province of the courts to punish men for crimes committed," said Senator Teller in discussing the injunctions against the striking coal miners, "but now it seems to be the accepted idea that the courts can punish men for crimes which somebody alleges they may commit."

Girl's Suspicious Death.

BRISTOL, Vt., Aug. 16.—Dora E. Cushman, the 15-year-old daughter of Dr. A. J. Cushman, of Lincoln, has been found dead in a pasture near her father's house at daybreak by a searching party which had been out all night. The girl had gone blackberrying. There are suspicious circumstances. A young man has disappeared.

Illicit Distillery in Chicago.

CHICAGO, Aug. 16.—Internal revenue officers raided a house in Twenty-sixth place and found an illicit distillery, capable of turning out 53 gallons of "moonshine" a day.

THE PRINCES WOUNDED.

Royal Duel Fought With Swords in Paris.

HENRI OF ORLEANS HURT WORST.

Stabbed Twice in Right Shoulder and Right Side of Abdomen—Count of Turin Cut on Right Hand—Adversaries Then Shook Hands.

PARIS, Aug. 16.—The count of Turin and Prince Henri of Orleans have fought a duel with swords in the Bois de Marechau, at Vaoressen. M. Leontieff acted as umpire. The fighting was most determined and lasted 26 minutes. There were five engagements, of which two were at close quarters. Prince Henri received two serious wounds in the right shoulder and the right side of the abdomen. The Count of Turin was wounded in the right hand. Prince Henri was taken to the residence of the Duc de Chartres and received medical attendance.

The condition of Prince Henri is as satisfactory as could be expected. The doctors, after consultation, have expressed the opinion that no important organ was touched, but absolute rest is necessary for recovery.

The Count of Turin, considering the letters of Prince Henri of Orleans to the Figaro offensive to the Italian army, wrote to him on July 6, demanding a retraction. This letter could not be answered until August 11, the day of the arrival of Prince Henri in France. The prince replied to the count's demand by telegram, maintaining the right of a traveler to record his experience.

The official account then describes the arrangements for the duel, gives the names of the respective seconds and says that at their first interview they agreed that the encounter was inevitable. They agreed to fight with swords.

In the first assault Prince Henri was hit in the right breast, though the weapon did not penetrate the thorax. On the strength of the report of the doctors the seconds decided the combat must go on.

The second assault was stopped because the combatants came into close quarters.

In the third assault the Count of Turin was hit in the back of the right hand, but the wound was slight.

In the fourth assault the umpire, Major Leontieff, declared that the sword of Prince Henri was bent, and stopped the engagement long enough to furnish the prince with a weapon.

In the fifth assault the combatants again got into close quarters, and were immediately stopped, Prince Henri, in a counter blow, being hit in the right lower region of the abdomen. The doctors on both sides examined the wound and declared that Prince Henri was rendered by it clearly inferior to his antagonist. Major Leontieff and M. Haurchion proposed that the combat be stopped, and this was done with common accord. While his wound was being dressed, Prince Henri, raising himself upon the ground, extended his hand to the Count of Turin, saying: "Allow me, Monseigneur, to shake hands with you."

The Count extended his hand.

The encounter was very sharp and determined. Immediately on the crossing of swords Prince Henri vigorously pressed his adversary. The count of Turin retreated to the limit of the ground and then, assuming the offensive, touched his opponent. The third and fourth assaults ended in long engagements within guard. The Temps says that the wound in the abdomen of Prince Henri is serious, but not alarming. Had the count of Turin's steel gone slightly deeper, the intestines would have been perforated.

After his wound had received a preliminary dressing, Prince Henri walked to his carriage unaided. The Count of Turin, accompanied by his second, then left Paris for Italy. He was not experiencing any special distress from his wound.

The seconds of Prince Henri of Orleans were M. De Leontieff, governor general of the equatorial provinces of Abyssinia, and M. Raoul Mourichon. The Count of Turin's were General Count Avadro de Quinto and the Marquis Carlo di Ginori.

It appears that Prince Henri's sword was bent by a button on the count's trousers, but for this chance it seems there is little doubt that the count would have been run through or at least dangerously wounded. In fact, the doctors and seconds thought this had happened.

When Prince Henri received the wound in his abdomen he clapped his hands to the spot and sank back to his seat, supported by Leontieff. He then rolled upon the ground, exclaiming that he could do no more. The doctors fear that the wound may be complicated by peritonitis, and there is need of extreme care for a few days.

Cut Five Policemen.

PITTSBURG, Aug. 16.—James Elbert, supposed by the police to be an anarchist, cut Policeman George McIntyre's throat with a razor at No. 3 police station just after the hearing yesterday morning. He then slashed four other officers with the razor and fled, but was shot in the wrist and captured. The officers will recover.

PITTSBURG, Aug. 16.—The injunction proceedings against the marching miners is being finally heard today. That there is much interest in the situation is evidenced by the presence here of a number of the foremost labor leaders in the country. Michael D. Ratchford, president of the United Mine Workers of America; Samuel Gompers, president of the American Federation of Labor, and James R. Sovereign, general master workman of the Knights of Labor, are here and will remain a few days. While they are here they will be kept busy.

They came from West Virginia and were brown and enthusiastic. Ratchford seemed to be well pleased with the outlook.

President Gompers expressed a hopeful view of the situation in West Virginia. He said there was some coal being produced in certain sections, but this supply was being gradually cut off. He claimed there was generally sympathy for the cause, and that fully 13,000 of the 20,000 diggers of that state have joined the suspension.

A series of meetings to be addressed by the labor leaders will be arranged. Ratchford, Gompers and Sovereign addressed a big meeting at "Camp Isolation," at Plum Creek, Sunday afternoon. It was one of the biggest meetings in the history of the strike. Some of the miners employed by the New York and Cleveland company were at the meeting.

In case the injunction is continued it is altogether probable that some of the men may march in order to get arrested. The reason for holding off is said to be due to the fact that the men have hopes the injunctions will be quashed. In case they win, the strikers say they will camp right where they are and march every morning until the strike is won. The camp commissaries are well stocked with provisions, and so far as the material man is concerned the strikers will not suffer. No move will be made by the sheriff towards raiding the camps until after the hearing Tuesday. If the injunction is continued he says the camps will be broken up in short order.

MINERS STILL MARCH.

Ignore the Injunctions and Continue to Visit the Bunola Mines.

PITTSBURG, Aug. 16.—Notwithstanding the injunction secured by the Bunola Coal company, the strikers continue to march every morning to the

pit. The deputies arrested eighteen and brought them to Pittsburgh. They were placed in jail on a charge of disorderly conduct.

The injunction case against the Bunola miners was heard before Judge Collier, of the county court, and the decision reserved. The judge said he wanted to do justice to both sides and before rendering a decision he desired to carefully examine the testimony.

The DeArmits Evicted Strikers.

PITTSBURG, Aug. 16.—The DeArmits have begun to evict the striking miners. The first eviction was made at 6 p. m. Saturday and the first victim was John Crotol, who lived at the top of the hill at Center in the Plum Creek region.

CRAZY TO REACH KLONDYKE.

A Thousand People Embarked on Ships From Victoria, B. C.

VICTORIA, B. C., Aug. 16.—There were in Victoria close upon 1,000 men of every class and from every part of the world who were just crazy to get started on the long trip to the new Eldorado. These men had tickets which will carry them to Skagway bay on the big collier Bristol, or on the steamer Islander, both of which sailed Sunday. The Bristol had been fitted with bunks and stalls for horses from the bottom of her hold to the top of her cabin deck, and every bunk and stall is occupied. Close upon 700 are going on the Bristol and just as many horses and mules. Even the big collier is filled up, the feed for these animals and the outfits for the men taking up an immense amount of space.

The Islander has just as big a crowd, but much of the space on her is taken up by a contingent of mounted police, their horses, dogs and outfits. They realize that they have a winter's trip before them before they reach Dawson City and are taking dogs and sleighs.

Horses will be taken as far as possible, and when they are of no use will be killed and used for food for dogs. A few of the men are going up with the idea of purchasing cheap outfits from men who became discouraged and are turning back; but most of them are well provided and all are taking pack animals, they having in this respect taken the advice of men who went before and have written of the difficulty of securing animals or Indians to pack goods across the pass.

Ladue Gets \$5,000,000.

NEW YORK, Aug. 16.—Joseph Ladue, the owner of Dawson City, in the Klondyke, the land of which cost him but a few nuggets, announced that he had sold all his possessions in Dawson City and the Alaskan gold fields to a New York syndicate for \$5,000,000. Ladue went to Alaska a poor man.

SAVED BY VICTIM'S FATHER.

A Rapist Spared for Trial—Armed Men After Another Brute.

CHATTANOOGA, Tenn., Aug. 16.—Will Phillips, the man who recently criminally assaulted Miss Sallie Jones, daughter of a wealthy Georgia planter, residing near this city and who was arrested in Arkansas, has been taken to the jail at Lafayette, Walker county, Ga., where the crime was committed. A mob had been organized to lynch Phillips as soon as Miss Jones identified him, but her father prevailed on them to let him go to trial.

Poses are in pursuit of the assailant of Mrs. and Miss Heathcock and every road and avenue to Chickamauga park is being guarded by armed men, who say he shall die when caught. A large reward has been offered for the man. The assaults on Miss Jones and the Heathcocks occurred within a mile of each other.

POSSE PURSUING HATFIELD.

Two Wounded When the Sheriff Dynamited His Stronghold.

HUNTINGTON, W. Va., Aug. 16.—It is now learned that no lives were lost in the fight between Cap Hatfield and his gang at Big Rock Cliffs, but it is reported that two were wounded. Hatfield and his followers are believed to be short of ammunition as well as supplies. They have retreated further into the mountains and are being closely followed by a posse. The sheriff blew up their fortress with dynamite.

Senator Teller's Views.

DENVER, Aug. 16.—"Heretofore it has been supposed to be the province of the courts to punish men for crimes committed," said Senator Teller in discussing the injunctions against the striking coal miners, "but now it seems to be the accepted idea that the courts can punish men for crimes which somebody alleges they may commit."

Girl's Suspicious Death.

BRISTOL, Vt., Aug. 16.—Dora E. Cushman, the 15-year-old daughter of Dr. A. J. Cushman, of Lincoln, has been found dead in a pasture near her father's house at daybreak by a searching party which had been out all night. The girl had gone blackberrying. There are suspicious circumstances. A young man has disappeared.

THE PRINCES WOUNDED

Royal Duel Fought With Swords in Paris.

HENRI OF ORLEANS HURT WORST.

Stabbed Twice in Right Shoulder and Right Side of Abdomen—Count of Turin Cut on Right Hand—Adversaries Then Shook Hands.

PARIS, Aug. 16.—The count of Turin and Prince Henri of Orleans have fought a duel with swords in the Bois de Marechau, at Vaoressen. M. Leontieff acted as umpire. The fighting was most determined and lasted 26 minutes. There were five engagements, of which two were at close quarters. Prince Henri received two serious wounds in the right shoulder and the right side of the abdomen. The Count of Turin was wounded in the right hand. Prince Henri was taken to the residence of the Duc de Chartres and received medical attendance.

The condition of Prince Henri is as satisfactory as could be expected. The doctors, after consultation, have expressed the opinion that no important organ was touched, but absolute rest is necessary for recovery.

The Count of Turin, considering the letters of Prince Henri of Orleans to the Figaro offensive to the Italian army, wrote to him on July 6, demanding a retraction. This letter could not be answered until August 11, the day of the arrival of Prince Henri in France. The prince replied to the count's demand by telegram, maintaining the right of a traveler to record his experience.

The official account then describes the arrangements for the duel, gives the names of the respective seconds and says that at their first interview they agreed that the encounter was inevitable. They agreed to fight with swords. In the first assault Prince Henri was hit in the right breast, though the weapon did not penetrate the thorax. On the strength of the report of the doctors the seconds decided the combat must go on.

The second assault was stopped because the combatants came into close quarters.

In the third assault the Count of Turin was hit in the back of the right hand, but the wound was slight.

In the fourth assault the umpire, Major Leontieff, declared that the sword of Prince Henri was bent, and stopped the engagement long enough to furnish the prince with a weapon.

In the fifth assault the combatants again got into close quarters, and were immediately stopped, Prince Henri, in a counter blow, being hit in the right lower region of the abdomen. The doctors on both sides examined the wound and declared that Prince Henri was rendered by it clearly inferior to his antagonist. Major Leontieff and M. Hauchion proposed that the combat be stopped, and this was done with common accord. While his wound was being dressed, Prince Henri, raising himself upon the ground, extended his hand to the Count of Turin, saying: "Allow me, Monseigneur, to shake hands with you."

The Count extended his hand. The encounter was very sharp and determined. Immediately on the crossing of swords Prince Henri vigorously pressed his adversary. The count of Turin retreated to the limit of the ground and then, assuming the offensive, touched his opponent. The third and fourth assaults ended in long engagements within guard. The Temps says that the wound in the abdomen of Prince Henri is serious, but not alarming. Had the count of Turin's steel gone slightly deeper, the intestines would have been perforated.

After his wound had received a preliminary dressing, Prince Henri walked to his carriage unaided. The Count of Turin, accompanied by his second, then left Paris for Italy. He was not experiencing any special distress from his wound.

The seconds of Prince Henri of Orleans were M. De Leontieff, governor general of the equatorial provinces of Abyssinia, and M. Raoul Mourichon. The Count of Turin's were General Count Avadro de Quinto and the Marquis Carlo di Ginori.

It appears that Prince Henri's sword was bent by a button on the count's trousers, but for this chance it seems there is little doubt that the count would have been run through or at least dangerously wounded. In fact, the doctors and seconds thought this had happened.

When Prince Henri received the wound in his abdomen he clapped his hands to the spot and sank back to his seat, supported by Leontieff. He then rolled upon the ground, exclaiming that he could do no more. The doctors fear that the wound may be complicated by peritonitis, and there is need of extreme care for a few days.

Cut Five Policemen.

PITTSBURG, Aug. 16.—James Elbert, supposed by the police to be an anarchist, cut Policeman George McIntyre's throat with a razor at No. 3 police station just after the hearing yesterday morning. He then slashed four other officers with the razor and fled, but was shot in the wrist and captured. The officers will recover.

BECOMING INDIANS.

CLAIM THAT AMERICANS ARE DEVELOPING ON THAT LINE.

Increasing Resemblance In Faces to the Aboriginal Type—A Study of Heads, With Especial Attention to the Residents of Pennsylvania.

It is an extraordinary question in anthropological science which has been propounded popularly of late. The influence of environment upon the race resident in the United States must in the course of four centuries produce certain marked and undeniable physical results. It is not generally acknowledged by American anthropologists that there is a tendency of reversion to the type indigenous to the soil. But foreign students of race, with more perspective, have offered interesting food for reflection. A writer in the Chicago Times-Herald, commenting on the assertion of the French authors that on this continent the American white man has varied toward the Indian type, offers a fascinating study which is curiously supporting—possibly vastly important.

First, the familiar faces of the caricaturists' creation are called in as witnesses. The Yankee and the southern—large and loose limbed—of these pictures are types, even as the stout, full faced John Bull is a type found in another environment. Both American favorites of the cartoonist have high cheek bones and usually excellent straight noses. These witnesses are not, of course, scientifically admissible. The faces given us by the caricature makers are impressions, not testimony.

Scientific, however, is the study offered of the Pennsylvania Germans—a happy, thrifty, frugal people, who have been subjected to American conditions for nearly two centuries, with very little intermingling with other races, much less than the English people in New England or in Virginia.

It is true that the pervasive and beguiling Irish have intermarried somewhat with these old Pennsylvania settlers, but in the main it is a very exclusive, pure blooded Palatinate stock. Data have been secured relative to a large number of school children and to adult males from 25 to 50 years of age, and many copies of portraits of original settlers. It appears that stature increases and that other important generalizations may be made, tentatively of course. The increase of finger reach is marked, and the head measures are important.

"The anthropologist places considerable value upon certain proportions or relations between measures," says the student of the subject. "Thus the length of the head and the breadth of the head, when compared, give numerical expression, which is called the cephalic index. To find it the length is divided into the breadth and the result multiplied by 100. A head one-half as wide as it is long would have an index of 50; one three-fourths as wide as long would have an index of 75; one as wide as it was long would have an index of 100. There is no race whose head is normally so wide as to have an index of 100 or so narrow as to have one of 50. The higher the index, of course, the broader and sounder the head; the lower the index, the longer and narrower the head. Germans generally are notably round headed. Topinard gives for some people of Lorraine the index of 85.3. The average index of 100 Pennsylvania Germans is 81.9, which is notably less and narrower. The heads of our northern and eastern Indians are still longer and narrower. We cannot at present make a further comparison with profit. What we have already said may prove erroneous when we learn the actual Palatinate type. We assume now that the Palatinate Germans were of medium stature, light haired, blue or light eyed, round headed, with a finger reach of 1.043. We find that the Pennsylvania German children are dark in hair and eyes, that the men are probably of increased stature, that heads appear to be lengthening, that arm reach appears to be increasing. In all these respects the Pennsylvania German varies from the assumed Palatinate type and in the direction of the Indian. If our assumption proves valid, we may claim that our evidence shows change, which, if continued, may form an Indian type from the German."

All this, it must be noted, is absolutely distinct from any of the reasons for discussing the tendency of Americans to revert to original types from the infiltration of the red Indian blood itself in the veins of the white race. From the days of the old French and Indian wars fireside tales of New England intermixture of that sort have been common enough. A recent novel has expressed the country knowledge in New England that there is an occasional "streak" from ancestry that approached New England from the west as well as that which approached it from the east across the Atlantic. In the western states and territories the great numbers of half breeds whose descendants find their way into the life of cities brings to bear a curious and unreckoned force in the development of the fiber and sinew of the race in North America.—Boston Transcript.

Travelers to and From East End Are Trespassers.

THE CITY SHOULD ASSIST THEM

The Right of Way Along Public Thoroughfares Has Not Been Legally Granted Between East Liverpool and the East End.

EDITOR NEWS REVIEW:—Many of the citizens of East Liverpool and the East End are not aware of the fact that every time they travel to and fro between these portions of the city proper they are trespassing, and they would laugh at such an assertion and term it the proposition of some practical joker. Don't let them laugh any more, for the statement is an absolute fact. The right of way on either the upper or lower road has never been legally obtained and owners of vehicles and pedestrians, traveling between these points, are certainly trespassers. Further than this, there are some residents of East Liverpool who do not seem to care about the matter, and who apparently have no desire to help out the much abused and neglected East Enders of whom I am one, and I claim the right, as a good citizen, taxpayer and property holder, to enter my most solemn protest against such a condition of affairs.

East End is an important adjunct or suburb of East Liverpool, and is destined to become of much more importance as the years roll by. Industrial enterprises are reaching out for the East End. It is easy of access, with first class facilities for transportation, and its importance as an aid and helper cannot be overestimated. We are glad to learn that there are a number of good citizens of East Liverpool who are awakening to the importance of this suburb and are now earnest advocates, not only of securing the right-of-way and having affairs in proper legal shape, but for the improving of the roads leading thereto, especially of the upper road. This avenue of communication can be made a fine thoroughfare, with but a comparatively light expenditure of money, and the result of its competition will be decidedly to the advantage of central East Liverpool, as it would attract, from far and near, a large country trade which is now going to other points.

Let the matter be ventilated through the columns of your paper. Keep our interests before your readers. You will lose nothing by such a course. The material interests of East Liverpool demand that this right-of-way should be secured without any delay, and this action at once followed up by our city council ordering the roads communicating with the East End to be placed in first-class condition.

We are now prepared to place on the market our machines for generating acetylene gas. These machines are adapted for lighting stores, factories, churches and private residences. Small towns and farmers can now have gas as well as those in the cities, as each consumer controls his own little gas plant, which is quite inexpensive. We guarantee to furnish six times as much light at less than half the expense of ordinary gas, electric light or kerosene lamps. A first-class agent is wanted in every county to sell our machines.

THE CRESCENTS WON

Negley Defeated by a Score of 20 to 2.

A VERY INTERESTING CONTEST

The Wellsville Boys Hit the Ball Hard While the Visitors Could Not Find Turner Successfully—Other Items of Interest.

The Crescents added another victory to their long list Saturday afternoon by the defeat of the Negley team. The Negley team claim to have defeated Lisbon and East Palestine and to have tied East Palestine once, but they showed they were not in the same class as the Wellsville team. Negley played a good game at some stages, but they were unable to hit Turner safely, while the Wellsville boys hit Negley's two pitchers at will, and piled up the singles and two-baggers, while Grafton pounded out a beautiful three-bagger. Although Negley's pitchers were hit hard, that was no disgrace, as every pitcher that has went up against the home team this year has been hit freely. In the absence of McShane and Steele, Hamilton and Roger were substituted and played short and right respectively. The home team lined up as follows: Jobbin, first; Collins, catcher; Dolan, second; Heeken, middle; Grafton, third; Turner, pitcher; McGurran, left field; Hamilton, short, and Roger, right field. Score:

The board of education are complying with the demands of the board of health and have commenced to better the sanitary condition of the Central school building. Plumbers are at work on the steam pipes repairing them. The school board say they will connect with the sewer just as soon as the city puts the sewer in the alley at the side of the building.

Railroad Notes.

The officials from the Pennsylvania lines who inspected the Cleveland and Pittsburg railroad shops here were very well pleased with them and report everything satisfactory. The shops here have one of the best air line systems in the country.

The engine that pulls 337, the afternoon Cleveland train, on account of the unusually heavy load Saturday bent a piston rod at Irondale and the train was delayed until a freight train was sent from here to pull the train through.

Grant Crasman, car repairer, returned to work this morning after a long sickness.

Bert Ridd is working in the storeroom during the illness of W. B. Fisher.

The yards are full of work and the entire shops will work 10 hours the balance of the month.

The News of Wellsville.

Railroad Officer William Lancaster will move his family from Brilliant to this city this week.

Unusual vigilance on the part of the day police yesterday failed to find any violators of the Sunday ordinances.

Many families removed from this city to Hollow Rock this morning. Ten new cottages are in course of erection.

John Patterson, who pitched for the Negley team, Saturday, will remain in Wellsville and play with the Crescents.

Miss Edith Sweeley and friend, Miss Maud Wagoner, of Crestline, left this afternoon for a week's visit in Buffalo.

Manager Grafton and Captain Jobbing drove to New Cumberland, yesterday, and arranged for two games with the Cumberland Blues. One is to be played in Wellsville, next Saturday, and the other in New Cumberland the following Saturday. It is hoped that Cumberland will not back down this time, as the Wellsville boys are anxious to play them.

Four bums faced Justice MacKenzie, this morning. All plead guilty to riding on freight trains without permission, and were fined \$4.60 and committed. Mayor Jones had no cases this morning.

MILITARY SCIENCE.

Simplified Fortifications, Bicycles and Automatic Guns Are Modern Features.

It seems to be the general opinion among United States army officers that the development of military science in the immediate future will be in the direction of simplified fortifications, greater utilization of the bicycle and the extended use of some form of automatic gun. The modern army engineer sees little use in raising great mounds of earth such as used to be done when hasty and even permanent works were needed. The bigger the earthwork the greater the mark for the enemy's guns. A hole in the ground has been the theoretical formula for fort building, and now that we possess fieldpieces with disappearing carriages it can be practically carried out. A gun that is capable of rising out of an innocent looking hole, pouring forth great volleys of death dealing bullets and then sinking out of sight, leaving hardly a trace of its presence and certainly nothing to fire at, is formidable enough to invest the new theory with all needful logic. It would be to an enemy what the hollow road near Waterloo was to the cuirassiers of Napoleon.

The rifle of the future will be the automatic rifle. This is the conclusion of military men not only of this, but of other countries. General Wille, a German army expert on the subject of firearms, says decisively that it will ultimately be the rifle in general use by the armies of the world. Its particular point of merit is its capacity for doing away with the mechanical operation of loading. In effect it does its own loading, leaving the soldier free to attend to the business of firing, thus concentrating his attention on his opponent and rendering his aim surer.

As pointed out by General Wille, the force of the recoil of the automatic gun is employed for charging and closing the breech, and the firer has only to let off the shot in order again to load the weapon, so that the number of shots discharged without an effort is precisely the same as the total contents of the magazine. The only comparatively weak part of the automatic gun lies in its springs, but, as they have been found after tests made in Austria to withstand the wear and tear of from 10,000 to 14,000 discharges, this does not count for much.—New York Sun.

ROYAL HUNT TOMFOOLERY.

What It Costs to Maintain the Famous Sport.

A year or two ago, says the editor of London Truth, I took up the matter of the royal buckhounds, for I have always

thought that anything with less of the redeeming feature of sport than to cart a tame deer to some spot, turn it out, hunt it with dogs, and, having hunted it down, put it back in its cart for another day's "sport" cannot well be conceived. When I was engaged in this crusade, I received many letters assuring me that the deer like being pursued by dogs, although how the animals conveyed their singular idea of pleasure to the writers of the letters was not explained to me. Now that the bishops have joined the crusade, we may hope that the cruel tomfoolery of this royal hunt will soon cease.

The country pays the costs. The salary of the master of the buckhounds (£1,200 per annum) is always enjoyed by a nobleman, the occupant of the post changing with a change of ministers. Besides this there are salaries to huntsmen, whips and others, the purchase and keep of horses and hounds, etc. I should suppose that the total outlay must be about £3,000 per annum. This is defrayed, it is true, from the civil list. But when the amount needed to maintain the sovereign was investigated in order to arrive at the total necessary, this expenditure was included in the estimate.

It is suggested by the bishops that the quarry should cease to be deer and should henceforward be a red herring. But the idea, as an attribute of majesty, of the sovereign keeping a lot of dogs to run after a red herring is childish.

Eccentric Joseph Willard.

The late Joseph Willard of Washington was noted for his eccentricities. A capitalist of this city once desired to erect an expensive building on a lot in Washington owned by Mr. Willard, but the latter refused to sell the property, saying that the Italian fruit vender, who had been on the corner for five or six years, did not want to be disturbed. He also owned three office buildings in Fourteenth street. He had several requests from persons who desired to let up stairs portions. But he always refused, saying the presence of people up stairs might disturb General H. V. Boynton, the well known newspaper correspondent, who had an office below.—New York Tribune.

MODERN WOODMEN FIGHT.

Governor Tanner's Sound Advice to the Rock Islanders.

SPRINGFIELD, Ill., Aug. 16.—Governor Tanner has received many dispatches about the Woodman trouble. The call for troops was made by Mayor Medill of Rock Island. The governor has given out the following statement concerning the affair:

"The messages received have led me to believe that the Rock Island people or the Woodmen pursued an unwise course in chartering the train and loading it with 500 Rock Island citizens and proceeding into Fulton with so much gusto and show. Such a course was calculated to create a riot. If the courts decree that the records and books of the Modern Woodmen belong in and shall be removed to Rock Island the whole power of the state is behind the courts to enforce decrees. But in order to procure that power they must proceed in an orderly, lawful and peaceful manner. I am pleased today to see that all is peaceful and quiet and that the outcome has justified the wisdom of my action in refusing troops."

WANTED A FREE GOSPEL.

People Tore Down a Campmeeting Fence to Escape Paying Admission.

READING, Pa., Aug. 16.—There was quite a scene at the Joanna Heights Methodist campmeeting grounds Sunday. It was the last day of the meeting, and Rev. H. U. Sebring, the owner of the grove, decided to charge admission. About 4,000 persons came to the camp, many of whom became indignant when they learned of the admission charge. Some paid the fee and entered, but a great many remained outside.

Finally some of the bolder ones began an attack on the fences, big sections of which they broke down. Their example was followed by others, and in addition to tearing down the fences, the ticket office was removed from its foundation and the big crowd rushed into the grove. Order was finally restored.

ENFORCEMENT OF LAW.

When an officer of the law neglects his sworn duty and fails to enforce the ordinances controlling the municipality which employs him, he is simply unfit for his position and should be compelled to vacate it.

A "STILL HUNT."

Asstute politicians are aware of the fact that a "still hunt" is being made in the body politic in this immediate section. The nature of the movement is understood, but the modus operandi thereof cannot be successfully solved by the wisecracks; hence there is decided uneasiness among the fellows who fix the slate. Watch for coming events.

A DRAUGHTSMAN.

He's a prominent draughtsman and at the same time a prominent politician. Can you designate his greatest drawing. Yea, verily we can—his salary. He does nothing for his constituents, nothing for the masses. He's an incubus on the body politic. He draws his salary because he has done dirty work for the political bosses. Watch them both. They have long held sway. Their day of retribution is close at hand.

THEY ARE WORKERS.

Make note of this fact, readers of the NEWS REVIEW. They are workers; yea, they are indefatigable workers, rising with the lark and keeping company with the owls and the bats, far into the night. They are incessant workers. They rarely take vacations. If they do, they do not close their doors, but place an earnest worker in charge of their business, and their "industry (?) " never lags. They push their business in the heat of the summer and during the chilling blasts of winter. They make their business places as attractive as possible, in order that customers may be attracted and "taken in." These workers and these business (?) places exist to a great extent in East Liverpool. You know them and you know the trend of their influence. These places are known as the "American Saloon," run by the devil and his willing servants and coworkers, and they are a curse and a blight upon this fair nation. They rob the pottery worker and the toilers in any and every avenue of life, as well as the wives and children of those toilers, returning a curse upon the man or woman who hands to them, over their counters, the hard earned wages of the week. This is not a fabrication, an attempt to deceive, or a lie. It is the plain, unadulterated truth, and you know it to be so, if you know anything. The saloon and the liquor business are classed, by the law, as legitimate branches of trade, of business. Law is supposed to be right, to be fair, to be justice. In the light of this definition, the liquor business is illegal and illegitimate. It takes the poor man's money and returns to him no just equivalent. On the contrary, it deliberately robs him, curses him, blights him, ruins him, body and soul. The average business man is awaking to this fact. He no longer wants the drinker and his twin brother, the gambler, in his employ. If he be a TRUE business man, he will not KEEP him in his employ. He cannot afford to do so.

It is becoming a common sense matter of dollars and cents. God is solving the question. He will, in his own wise way, destroy this curse of the nation. The handwriting is on the wall. The American saloon must go. God speed the day.

Grant Drilling the Home Militia.

Grant left West Point in midsummer and spent his furlough in Bethel and Georgetown. He was invited by the officers of the militia to drill the troops at "general muster," which took place at Russellville during August of 1844.

William Wilson and Peter Wamox are two of the few witnesses living who remember the splendid occasion.

It impressed itself ineffaceably on young Wilson's mind because it seemed wonderful, even revolutionary, to see a young lad such as Cadet Grant looked, ordering the pompous old officers about. "He looked very young, very slender and very pale.

"He was dressed in a long blue coat, with big epaulets and big brass buttons, and his trousers seemed to be white, though they may have been a light gray. He wore a cap and a red sash around his waist, and he rode his horse in fine style.

"I was particularly struck with his voice—that is, his way of using it. The old men barked out their commands. You couldn't tell what they said. Noise seemed to be their idea of command, but Grant's voice was clear and calm and cut across the parade ground with great precision. It was rather high in pitch, but it was trained. I could tell that, though I was only a boy."—Hamlin Garland in McClure's Magazine.

LOST FOUR FINGERS

A Sad Street Car Accident

HAPPENED IN THE WEST END

Young Arb Jumped From Some Weeds as the Car Passed—Motorman Ack Allison Released From All Blame, as the Track Was Clear.

A six-year-old child of Mr. and Mrs. Isaac Arb, of West End, had four fingers of its right hand cut off Saturday evening by having them run over by a street car.

As the car was nearing the West End trestle, the child, who was secreted in the high weeds, jumped out, without seeing its appearance. As it passed, the lad made a leap and fell, its right hand going under the car, as stated. Motorman Eck Allison, who had charge of the car, heard the child scream and stopped. He went back to the spot, and the child by this time had been carried to his home. He told the parents he did not see the child, and as he rounded the curve at the top of the hill the track was clear. The parents released him from all blame. Medical attention was summoned, and the injury dressed. The upper part of the arm was also badly bruised, and it will be some days before he can have free use of it.

Ancient Breton Custom.

In Brittany a quaint and very beautiful custom of Christmas giving is still preserved from very ancient times. When the country folk go to the midnight mass, the opening mass of Christmas day, they all carry lanterns to light them on their way. Upon their arrival at the church they give their lanterns over to the poor old women of the parish, who are gathered in a crowd outside the church awaiting them.

The worshippers enter the sacred building and then attend to the devotions, which the church teaches should be of especial fervor at this holy season. But when the mass is ended and they are dismissed with the benediction, they come forth to find the patient old women awaiting them outside the church bearing the lanterns. The lanterns are given back to their owners, and as each takes his own he exchanges for it a piece of money. The value of the piece varies, but the alms is always considerable, and it stands as an exponent of that charity which the church teaches to its children.—New York Herald.

MISS McVAY RESIGNED

A Good Position Vacant In the Central School.

MANY APPLICATIONS RECEIVED

Her Successor to Be Named at the Next Board Meeting—Miss Francisco, of Richmond, the Lucky Applicant—Miss McVay Will Go to Pittsburgh.

Miss Bertha McVay, for some years assistant to Miss Flo Updegraff in the Central school building, has resigned her position, and will leave for Pittsburgh next week. Miss McVay, while spending her vacation at her home, applied to the central board of education for a position. Credentials were sent, and at a recent meeting of that body she was elected assistant principal of the South Side high school of that place. The high school in the South Side of Pittsburgh is something new, and will be opened for the first time Sept. 6. The salary attached to the new position is \$800 a year, with ten months work. Miss McVay was in the city last Thursday, and sent her resignation to Doctor Norris and he in turn will present it to the local board at the next meeting.

After arranging some private matters she left for Athens, Saturday morning, and is not expected to return to this city.

No sooner had her resignation been received than applications for the vacant position began to come in. The first to be received was that of E. K. Barns, of Middleton, Va. A photo was inclosed and is still in the keeping of the clerk. Miss Elizabeth Henry, of Ada, O., wants the place, as does Miss Grace Webster, of Gallion, O. The photographs of Miss Elsie Clemets Davies, of Meadville, and Miss Elizabeth McIntosh, of Akron, were returned.

Miss Lucy Francisco, of Richmond, Ind., is the latest applicant for the vacancy. Her recommendations were of the highest order, and the fact that she graduated from Bryn Mawr college, Philadelphia, is enough to secure for her the position. The NEWS REVIEW is safe in saying Miss Francisco will be elected to fill the vacancy. The application from a Mr. Bowles, of Steubenville, was returned to the gentleman shortly after its receipt.

THE POLICE NET.

A Few Cases Disposed of, and One May Go to Canton.

Business at Hotel Gilbert was good yesterday, and as a result the treasurer of the institution is a little richer.

John Johanna was arrested Saturday evening, at the corner of Sixth and Broadway, by Officer Whan, who placed a charge of disorderly conduct against him. He was taken to jail in the patrol, and was the first to be arrested during the evening. Later in the evening his father appeared and put up \$6.60, and the young man was released.

The Labor Day Posters Win Very Warm Praise.

The full sheet posters turned out at the NEWS REVIEW job office are very much admired and are the subject of warm commendation. The combination of colors is truly harmonious, and the artistic skill displayed in the make-up cannot be equalled in this section. Mr. Frank Leslie Trump, the efficient foreman of our job department, has just cause for pride in the excellent work turned out by him. Our city merchants and business men are well aware of the fact that our advertising columns are much more attractive than those of would-be rivals, while our job department is head and shoulders superior to local competitors. Take a glance at the handsome poster in the window of the NEWS REVIEW office.

His Many Friends Will Rejoice at the Result.

Rev. Comrade Reed, pastor of the Christian church of East Liverpool, will remain with us for another year, as the vote of yesterday morning showed 136 in his favor as against 47 opposed to him. The NEWS REVIEW congratulates the membership of the church in retaining this estimable Christian gentleman, and only regrets that he met with any opposition, as united effort would assist him materially in building up this branch of the church in this community, under the blessing of the Master. Reverend Reed has made a host of friends in East Liverpool, outside of his church, and they are highly pleased that the reverend gentleman will remain with us.

A PRACTICAL SERMON.

Reverend Swift Preached Practical Christianity.

Reverend Swift, at present located with the congregation of the Methodist Protestant church of East Liverpool, delivered a strong sermon yesterday morning, taking for his subject the blessing of giving, showing that it is more blessed to give than it is to receive, when the giving is done in the right manner and in the right spirit. He emphasized the fact that the Lord loves a cheerful giver, going on to show that true Christian manhood believes in giving in a wise and helpful manner, and does not believe in hoarding money merely for the purpose of hoarding and gloating over it; that the just steward of the Lord is the man who takes the blessings given him by the Master and disseminates them; gives to the poor and needy; gives with a liberal hand out of the storehouse provided him by God, and thus lays up for himself riches in heaven, where "neither moth nor rust doth corrupt, and where thieves do not break through nor steal." God has promised that he who gives, to him shall it be given again, and this promise we know will be carried into effect in God's good way.

We are sorry that we cannot give a full report of the reverend gentleman's able sermon, as those present, from the different branches of the Christian church, were delighted with the manner in which the Master's message and promises were delivered. The NEWS REVIEW hopes to see Reverend Swift remain with us.

MISS McVAY RESIGNED

A Good Position Vacant In the Central School.

MANY APPLICATIONS RECEIVED

Her Successor to Be Named at the Next Board Meeting—Miss Francisco, of Richmond, the Lucky Applicant—Miss McVay Will Go to Pittsburg.

Miss Bertha McVay, for some years assistant to Miss Flo Updegraff in the Central school building, has resigned her position, and will leave for Pittsburg next week. Miss McVay, while spending her vacation at her home, applied to the central board of education for a position. Credentials were sent, and at a recent meeting of that body she was elected assistant principal of the South Side high school of that place. The high school in the South Side of Pittsburg is something new, and will be opened for the first time Sept. 6. The salary attached to the new position is \$800 a year, with ten months work. Miss McVay was in the city last Thursday, and sent her resignation to Doctor Norris and he in turn will present it to the local board at the next meeting.

After arranging some private matters she left for Athens, Saturday morning, and is not expected to return to this city.

No sooner had her resignation been received than applications for the vacant position began to come in. The first to be received was that of E. K. Barns, of Middleton, Va. A photo was inclosed and is still in the keeping of the clerk. Miss Elizabeth Henry, of Ada, O., wants the place, as does Miss Grace Webster, of Gallion, O. The photographs of Miss Elsie Clemets Davies, of Meadville, and Miss Elizabeth McIntosh, of Akron, were returned.

Miss Lucy Francisco, of Richmond, Ind., is the latest applicant for the vacancy. Her recommendations were of the highest order, and the fact that she graduated from Bryn Mawr college, Philadelphia, is enough to secure for her the position. The NEWS REVIEW is safe in saying Miss Francisco will be elected to fill the vacancy. The application from a Mr. Bowles, of Steubenville, was returned to the gentleman shortly after its receipt.

MAKE IT A TOWN HALL

One Councilman Has a Plan
For Disposing

OF THE FIFTH STREET RINK

He Would Have the Building Donated to the City and Then Remove It to the Old Cemetery, Where It Could Be Used For Public Gatherings.

To make a town hall of the Fifth street rink is the plan of one councilman.

In a conversation with a reporter he said: "The city is about to condemn the old cemetery for park purposes, and inasmuch as the rink is to be sold, why would it not be a good idea to have it removed to the cemetery and placed along the alley facing on Sixth street, where, with but little repair, it could be made to do service for a town hall."

"I have no doubt the stockholders of the rink, of which I am one, could be prevailed upon to donate the building to the city if they would pay the cost of moving it. Another point in favor of my argument is that if the rink is torn down there will be no suitable place in the city to hold public gatherings. If the city secured the building it would easily pay all expenses, and would be a benefit to the citizens and if it was properly fixed up it would not cause the park to lose any of its beauty. I am heartily in favor of the idea and at the next meeting of council will endeavor to get the sentiment of council on the subject."

Another plan which has been discussed is the moving of the building to the square opposite city hall and converting it into a market house. Many people favor the plan, but it will probably come to naught, as the market house idea was worn out long ago.

CLOSING EXERCISES.

Services at Spring Grove Are Now Over.

The services at Spring Grove camp-ground yesterday were well attended, although the inclement weather had the effect of keeping many people away, the total attendance being less than 800 people. Evangelist Swearingen occupied the pulpit in the morning and delivered a masterly address. In the afternoon Dr. J. S. Reager entertained a large audience, while a duet by Miss Pearl Sebring and Mrs. W. L. Murphy and a solo by A. J. Cartwright added to the occasion. The evening address was made by Evangelist Swearingen and a solo was sung by Miss Mame Reager. It was decided to not hold services today owing to the fact that all the ministers desired to return to their respective homes. Many families are making preparations to move, and the close of this week will see many empty cottages in the grounds.

The Humane society have interested themselves in the case, and will make every effort to find proper parties who will raise the child as their own.

CAUSED A LAUGH.

A Colored Man Wanted to Ride on Top of a Street Car.

A colored man Saturday night mounted the top of the last west bound street car and afforded the passengers no end of amusement. The motorman would stop his car every few feet to make the offender climb down, but it would only have the effect of causing him to climb back just as soon as the car would start. The motorman finally lost patience, and the colored gentleman was removed with a force that he did not forget the rest of the way.

Klondyke

The Land of Golden Nuggets.

JOSEPH LADUE,

the new Bonanza King of the Klondyke Gold Regions, gives the facts. His book reads like "The Arabian Nights," BUT Joseph Ladue KNOWS whereof he writes. He was the first man on the spot when the first gold was discovered last August, 1896. He located one rich claim and immediately purchased twelve others at a low price before their value was known. He has refused \$100,000 for any ONE of these claims, as they are rich with virgin gold nuggets, beyond the dream of avarice. Joseph Ladue then

Established Dawson City

at the mouth of the Klondyke and Yukon Rivers, by erecting the first house in the region in September, one month after the gold was first discovered. He bought 178 acres from the government on the city site where his town lots 150x50 are now selling for \$5,000 each.

Mr. Ladue was fortunate enough to be successful in his trading post investments to have on hand ample capital to carry out his plans, and there is no man living who is better posted on Alaska and the great North West Territories than Mr. Joseph Ladue. He has just returned from that country to his old home in Schuler Falls, N. Y., where he passed a large portion of his boyhood and early manhood. Mr. Ladue left his home nearly twenty years ago to seek his fortune in the west going first to the Black Hills, where he was successful in gold mining, thence to Arizona and the Pacific coast and finally located in Alaska and the northwest, where he has covered almost the entire country since 1882. Mr. Ladue is a typical pioneer: strong, hardy and resolute—a man of iron as one must needs be to go through the hardships he has and come out with a constitution unbroken and unimpaired at about the age of 43. Mr. Ladue has not only worked his muscles to good advantage to himself with the result of an abundance of the world's goods, far beyond the dreams of men, but he has evidently all this time been closely observing the conditions of that strange country—the Yukon Valley—which has so suddenly become one of the great centers upon which human interest throughout the world is focussed.

When the wonderful stories began to come down from the Yukon country it was naturally concluded that it was at least half exaggeration. That any such amount of gold could be taken in so short a time from a country like that under the most most unfavorable conditions was held to be incredible. But when the great bags of virgin gold began to be poured out upon mint counters in San Francisco under the eyes of the whole world (for modern journalism does this, annihilating time and space) people began to wonder and the wonder grew day by day as the real facts were disclosed, and now people who are well informed as to the facts declare that half the truth has not been told of the golden treasures of the Yukon Valley.

As we have already said, there is no man today alive who knows more about this wonderful country than does Mr. Ladue. What makes his talk of it specially interesting and reliable is the fact that his knowledge of it is practical. It has not been gained from hearsay nor from desultory visits made now and then at certain favorable seasons of the year, but from steady living there through the long summer days and the long winter nights, year in and year out for 15 years, where he now owns the best mining claims on the Klondyke and its tributaries.

In presenting his book to the public we do so knowing that it is by an authority on the subject of which he writes. His first work entitled

"Klondyke Nuggets"

is a brief description of the new gold regions, and anyone desiring authentic information should not fail to avail themselves of our

MAKE IT A TOWN HALL

One Councilman Has a Plan
For Disposing

OF THE FIFTH STREET RINK

He Would Have the Building Donated to the City and Then Remove It to the Old Cemetery, Where It Could Be Used For Public Gatherings.

To make a town hall of the Fifth street rink is the plan of one councilman.

In a conversation with a reporter he said: "The city is about to condemn the old cemetery for park purposes, and inasmuch as the rink is to be sold, why would it not be a good idea to have it removed to the cemetery and placed along the alley facing on Sixth street, where, with but little repair, it could be made to do service for a town hall."

"I have no doubt the stockholders of the rink, of which I am one, could be prevailed upon to donate the building to the city if they would pay the cost of moving it. Another point in favor of my argument is that if the rink is torn down there will be no suitable place in the city to hold public gatherings. If the city secured the building it would easily pay all expenses, and would be a benefit to the citizens and if it was properly fixed up it would not detract the park to lose any of its beauty. I am heartily in favor of the idea and at the next meeting of council will endeavor to get the sentiment of council on the subject."

Another plan which has been discussed is the moving of the building to the square opposite city hall and converting it into a market house. Many people favor the plan, but it will probably come to naught, as the market house idea was worn out long ago.

CLOSING EXERCISES.

Services at Spring Grove Are Now Over.

The services at Spring Grove campground yesterday were well attended, although the inclement weather had the effect of keeping many people away, the total attendance being less than 800 people. Evangelist Swearingen occupied the pulpit in the morning and delivered a masterly address. In the afternoon Dr. J. S. Reager entertained a large audience, while a duet by Miss Pearl Sebring and Mrs. W. L. Murphy and a solo by A. J. Cartwright added to the occasion. The evening address was made by Evangelist Swearingen and a solo was sung by Miss Mame Reager. It was decided to not hold services to-day owing to the fact that all the ministers desired to return to their respective homes. Many families are making preparations to move, and the close of this week will see many empty cottages in the grounds.

THE HUMANE SOCIETY

Want Someone to Adopt a Small Boy.

The Humane society at present have in charge a three-weeks-old boy who they are very anxious that some charitably disposed person will adopt. Although the boy is too young to gain admittance to the Fairmount Home, the mother is not willing that it should be sent there but wants some person in the city to take her child and care for it. The Humane society have interested themselves in the case, and will make every effort to find proper parties who will raise the child as their own.

CAUSED A LAUGH.

A Colored Man Wanted to Ride on Top of a Street Car.

A colored man Saturday night mounted the top of the last west bound street car and afforded the passengers no end of amusement. The motorman would stop his car every few feet to make the offender climb down, but it would only have the effect of causing him to climb back just as soon as the car would start. The motorman finally lost patience, and the colored gentleman was removed with a force that he did not forget the rest of the way.

CAUGHT THEIR MAN.

A Steubenville Hotel Robber Captured in Pittsburgh.

Marshal Selah, of Steubenville, passed through the city Saturday evening on his way to Pittsburgh. When he returned to his home yesterday he had in custody Jim Cain, who is supposed to have robbed Lawson's hotel in Steubenville.

Klondyke

The Land of Golden Nuggets.

JOSEPH LADUE,

the new Bonanza King of the Klondyke Gold Regions, gives the facts. His book reads like "The Arabian Nights," BUT Joseph Ladue KNOWS whereof he writes. He was the first man on the spot when the first gold was discovered last August, 1896. He located one rich claim and immediately purchased twelve others at a low price before their value was known. He has refused \$100,000 for any ONE of these claims, as they are rich with virgin gold nuggets, beyond the dream of avarice. Joseph Ladue then

Established Dawson City

at the mouth of the Klondyke and Yukon Rivers, by erecting the first house in the region in September, one month after the gold was first discovered. He bought 178 acres from the government on the city site where his town lots 150x50 are now selling for \$5,000 each.

Mr. Ladue was fortunate enough to be successful in his trading post investments to have on hand ample capital to carry out his plans, and there is no man living who is better posted on Alaska and the great North West Territories than Mr. Joseph Ladue. He has just returned from that country to his old home in Schuler Falls, N. Y., where he passed a large portion of his boyhood and early manhood. Mr. Ladue left his home nearly twenty years ago to seek his fortune in the west going first to the Black Hills, where he was successful in gold mining, thence to Arizona and the Pacific coast and finally located in Alaska and the northwest, where he has covered almost the entire country since 1882. Mr. Ladue is a typical pioneer: strong, hardy and resolute—a man of iron as one must needs be to go through the hardships he has and come out with a constitution unbroken and unimpaired at about the age of 43. Mr. Ladue has not only worked his muscles to good advantage to himself with the result of an abundance of the world's goods, far beyond the dreams of men, but he has evidently all this time been closely observing the conditions of that strange country—the Yukon Valley—which has so suddenly become one of the great centers upon which human interest throughout the world is focussed.

When the wonderful stories began to come down from the Yukon country it was naturally concluded that it was at least half exaggeration. That any such amount of gold could be taken in so short a time from a country like that under the most most unfavorable conditions was held to be incredible. But when the great bags of virgin gold began to be poured out upon mint counters in San Francisco under the eyes of the whole world (for modern journalism does this, annihilating time and space) people began to wonder and the wonder grew day by day as the real facts were disclosed, and now people who are well informed as to the facts declare that half the truth has not been told of the golden treasures of the Yukon Valley.

As we have already said, there is no man today alive who knows more about this wonderful country than does Mr. Ladue. What makes his talk of it specially interesting and reliable is the fact that his knowledge of it is practical. It has not been gained from hearsay nor from desultory visits made now and then at certain favorable seasons of the year, but from steady living there through the long summer days and the long winter nights, year in and year out for 15 years, where he now owns the best mining claims on the Klondyke and its tributaries.

In presenting his book to the public we do so knowing that it is by an authority on the subject of which he writes. His first work entitled

"Klondyke Nuggets"

is a brief description of the new gold regions, and anyone desiring authentic information should not fail to avail themselves of our

NOMINAL OFFER

which places the facts in the possession of our readers. REMEMBER, that our office is the sole distributing point for this locality, having closed exclusive arrangements with Mr. Ladue's publishers.

The cover of the work is beautifully printed in red and gold, the gold showing one of the author's nuggets as nearly as it is possible to reproduce it on paper.

Saturday afternoon Winnie Mercer
pitched a good game against the
Brooklyn team, defeating them by a
score of 7 to 4. He also fattened his own
batting average by making three hits,
one of them a double.

Mercer, of the Washingtons, both lay
claim to being the best sprinting pitcher
in the league. They may be matched to
run a race of 100 yards."—Chronicle.

The glassworks and Sebring pottery
teams played an interesting game of
ball at West End park Saturday after-
noon, the score resulting in favor of the
glassworkers by 21 to 20. The batter-
ies were McCurran, Murray and Emmer-
ling, and Kenney, Ford and Firth.

The Wellsville clerks will meet a
picked nine at West End park Thurs-
day afternoon.

The Liverpool team will cross bats
next Saturday with the Crescents, of
Wellsville, at the fair grounds. Mc-
Shane will be in the box for Liverpool,
and will be supported by the best team
in the city.

John Godwin will arrive in the morn-
ing from Philadelphia, where he has
been playing ball with the Athletics.

Dennis McCurran, George McNicol
and Mickey Lynch will go to Saline-
ville Thursday afternoon, to assist the
local team in playing Lisbon.

Phillip McShane will pitch for the
East Palestine Club against Wampum
at Petersburg next Thursday afternoon.

If it were not for Liverpool ball play-
ers many of the country teams would
not amount to much. Lisbon has Carey,
Finch, Howard, Smurthwaite and Hes-
ter; Wellsville has Steele; East Pale-
stine plays Albright and McShane and
Salineville sends for Lynch, McNicol
and McCurran to assist them. In ad-
dition to this, when Toronto plays ball
Reark is always found in the field, while
several other players from this city are
usually in the New Cumberland team.

Big Fire In Baltimore.

BALTIMORE, Aug. 16.—The large saw
and planing mills of the Tunis Lumber
company, Boston street, have been de-
stroyed by fire from a bolt of lightning,
and the conflagration was only sub-
dued after it had wrought damage to
the extent of \$600,000. Other property
was destroyed.

from the Ritchie county jail, including

Unauthentic Portraits of Franklin.

It seems the height of absurdity to
look upon the so called "Sumner Por-
trait of Franklin at Twenty," belonging
to Harvard university, as an authentic
portrait. Where did Franklin, who was
grubbing for funds to carry him home
at the time this picture is supposed to
have been painted, get the money for
the "purple and fine linen" in which he
is arrayed, let alone to pay the artist
for his work? Aside from Franklin's cir-
cumstances being against its authentic-
ity, his "Autobiography" is silent upon
so important a subject as this portrait,
and its history is purely mythical.

Another picture that has no better
claim to be considered a likeness of Ben-
jamin Franklin hangs in the Metropoli-
tan Museum of Art and was painted by
Stephen Elmer, an English still life
painter. There is nothing to show that
it was given the name of Franklin until
1824, when a plate engraved by Ryder
and published in 1782, as "The Politi-
cian," was relettered and issued with
the name of Franklin.

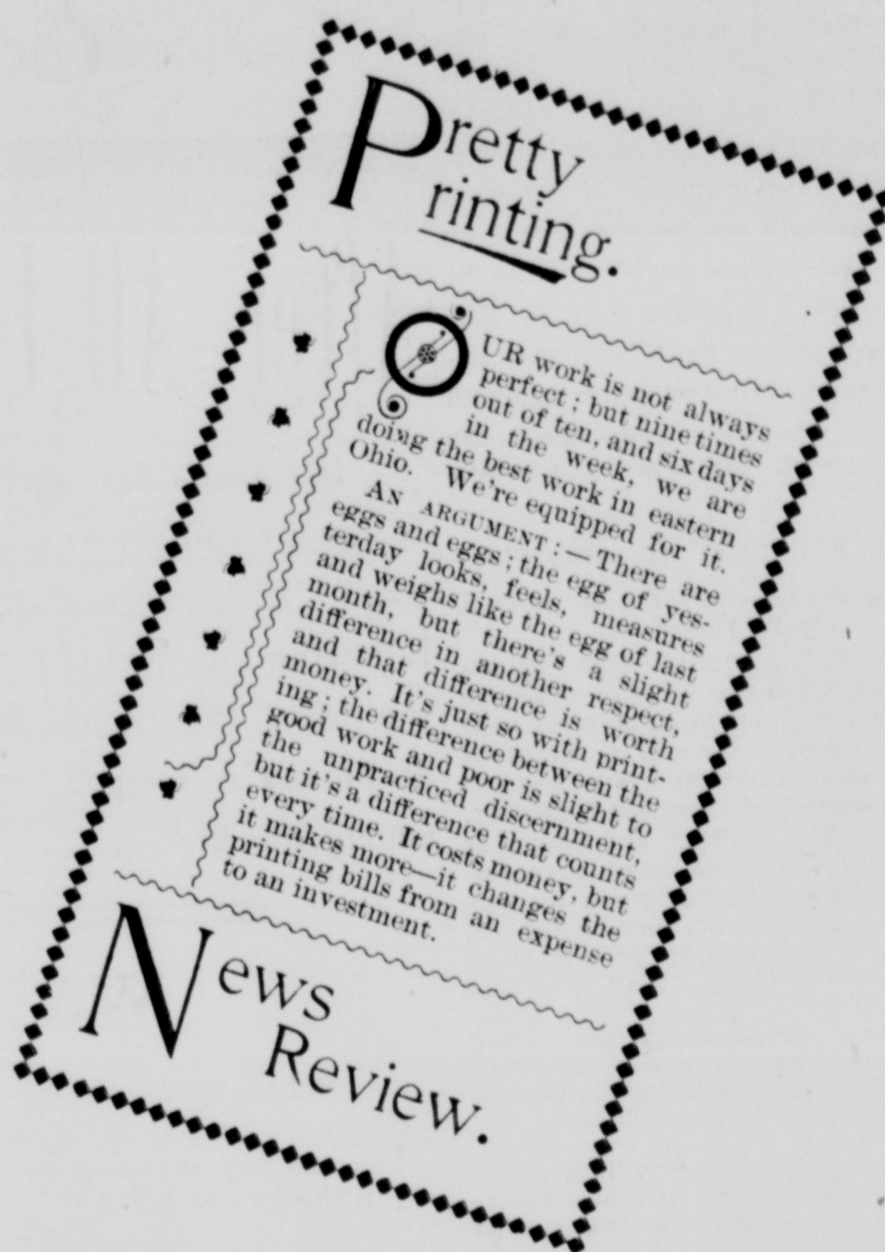

The last picture to be mentioned in
this expurgatorial list is of the first im-
portance as a work of art. It was paint-
ed by Thomas Gainsborough and is in
the collection of the Marquis of Lands-
downe, but it is clearly not Benjamin
Franklin. It is, in my opinion, the por-
trait of Governor William Franklin.—

zine.

The First Steam Power.

The power of steam was known to
Hero of Alexandria, who exhibited what
seems from the description to have been
a small steam engine to Ptolemy Phila-
delphus and his court about 150 B. C.
Pliny describes a small boat, built by a
"magician" of Rome, which moved by
means of a wheel, "driven by a pot of
hot water." Watt's invention of a ro-
tary steam engine was patented in 1769.
The first railway locomotive was built
by Trevithick in 1804. The first prac-
tical locomotive was perfected by Ste-
phenson in 1829. As early as 1707 Denys
Papin built a model of a steamboat,
which was destroyed by a mob of boat-
men. The first practical steamboat was
built by William Symington in 1802.
In 1803 Robert Fulton, in connection
with Chancellor Livingston, built a
steamboat which was tried on the Seine.
In 1807 the Clermont began trips from
New York to Albany.

A Discreet Estimate.

"Papa," said young Mrs. Hunker,
"won't you please give George and me
\$10,000?"
"What do you want that much money
for?"
"We want to build a \$5,000 house."

Pretty rinting.

OUR work is not always perfect; but nine times out of ten, and six days in the week, we are doing the best work in eastern Ohio. We're equipped for it.

AN ARGUMENT:—There are eggs and eggs; the egg of yesterday looks, feels, measures and weighs like the egg of last month, but there's a slight difference in another respect, and that difference is worth money. It's just so with printing; the difference between the good work and poor is slight but it's a difference that counts every time. It costs more, but it makes more—it changes the printing bills from an expense to an investment.

TROY, N.
